

REMARKS

The drawings are objected to by the Examiner for the reasons noted in the official action, e.g., the failure to show in the drawings each of the features specified in the claims. All of the raised drawing objections are believed to be overcome by new FIGS. 5-13 which accompany the attached Submission. It is respectfully submitted that the originally filed claims and the originally filed specification provide ample support for all of the entered drawings amendments and no new subject matter is entered by the same. If any further amendment to the drawings of this application is believed necessary, the Examiner is invited to contact the undersigned representative of the Applicant to discuss the same.

The above amended paragraphs of the specification introduce a brief figure description for newly entered diagrammatic FIGS. 5-13 and add reference numerals to the previously disclosed, but not shown, features in the specification on file. The undersigned avers that the newly amended paragraphs of the specification do not contain any new subject matter.

Claims 24-46 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for the reasons noted in the official action. The rejected claims are accordingly amended, by the above claim amendments, and the presently pending claims are now believed to particularly point out and distinctly claim the subject matter regarded as the invention, thereby overcoming all of the raised § 112, second paragraph, rejections. The entered claim amendments are directed solely at overcoming the raised indefiniteness rejection(s) and are not directed at distinguishing the present invention from the art of record in this case.

If any further amendment to this application is believed necessary to advance prosecution and place this case in allowable form, the Examiner is courteously solicited to contact the undersigned representative of the Applicant to discuss the same.

10/518,816

In view of the foregoing, it is respectfully submitted that the raised rejection(s) should be withdrawn and this application is now placed in a condition for allowance. Action to that end, in the form of an early Notice of Allowance, is courteously solicited by the Applicant at this time.

The Applicant respectfully requests that any outstanding objection(s) or requirement(s), as to the form of this application, be held in abeyance until allowable subject matter is indicated for this case.

In the event that there are any fee deficiencies or additional fees are payable, please charge the same or credit any overpayment to our Deposit Account (Account No. 04-0213).

Respectfully submitted,
